

STRIKER CAPITAL MANAGEMENT

Established in 2005, Striker Capital Management is a Hong Kong based multi-strategy Asset Management Company. The firm adheres to a disciplined and strategic asset allocation process across a range of investment and trading strategies. These strategies include traditional portfolio management, private deals, and in-house developed quantitative models; which are employed across a full range of asset classes and geographic regions.

We seek for independent people who thrive in a small, focused team and an entrepreneurial environment, and are driven to catapult oneself and the company to the frontier of investment research.

At Striker, every member is provided a free environment for pioneering ideas, a facilitator for investment research, and space to realize one's full potential.

Application Developer

Responsibilities:

The application developer will be heavily involved in the team's quantitative research process. It will be a key role in assisting a team of investment analysts in financial modeling, back-testing mathematical algorithms, and simulating quantitative trading strategies. Potential projects may include the development and management of financial databases, and the quantitative framework for supporting the securities portfolio construction process. Support users in software and hardware problem resolution.

Requirements:

- Bachelor degree or equivalent in Computer Science, Computer Engineering, Mathematics, or similar disciplines.
- Participate in database design and implementation.
- Knowledge of C++ or Java or .Net or PHP is desirable.
- Familiarity with MS Excel and VBA is preferred.
- Quantitative and analytical mindset.
- Knowledge in Statistics or Finance is desirable but not mandatory.
- Fresh graduates are welcome to apply.

We offer:

- Competitive base salary and structured annual bonus compensation
- Entrepreneurial and casual working environment;

For immediate consideration, please email a detailed resume together with current and expected salary to hr@strikercapital.com.
